

## BORDEN PARISH HALL REPORT AUGUST 22

The safer disabled access proposal is still under consideration. A quote has been obtained for the work. Clarification will be given at the Parish Council meeting;

2. The rear exit doors had to be adjusted because the bottom catch was not secure. Kent Trade Frames quickly responded the same day as I reported the problem and repaired the catch.

3. The annual fire extinguisher check is due in August, and I have contacted Chubb. They will respond with a suitable date for the inspection shortly.
