WISES LANE MONITORING GROUP

January 2026

As requested, the toucan crossing location was asked and confirmation of this has been received, along with 6 other crossings. Please see below:-

> There are a series of controlled and uncontrolled crossings to be provided along the spine road. I have set these out below.
>
> Western Spine Road:
>
> - Two uncontrolled crossings:
> - One along the route of PROW ZR118
> - One immediately west of PROW ZR117
> - One controlled toucan crossing centrally within Phase 2
>
> Central Spine Road:
>
> - One controlled toucan crossing within Phase 1A
>
> Eastern Spine Road
>
> - Three uncontrolled crossings:
> - One immediately west of PROW ZR121
> - One centrally within Phases 3 & 4
> - One along the route of ZU43
>
> In total there are seven crossings along the road, five of which are uncontrolled and two that are controlled toucan crossings.

Please bring any other matters to the Full Council meeting on 15th January 2026
